

## COVID-19 Update

March 24, 2020

Dear Valued Customers,

We would like to thank you for your continued business and update you on our response to the COVID-19 health emergency.

It is our goal to maintain uninterrupted service to our customers while maintaining the health and safety of our employees, their families and the communities in which we live.

We continue to operate under the recommendations of the CDC as well as local, state and federal guidelines.

In our facilities we are practicing social distancing, daily disinfection of work areas and in general, lower and more uniform population densities within our work spaces. Employees that can work from home have been encouraged to do so. We are working hard with our suppliers to make sure that we have uninterrupted deliveries or finding alternatives where necessary.

As an Essential Business mandated by the Federal Government, we expect to continue to meet delivery demands as long as we are not prevented in doing so by our suppliers, local, state or federal mandates or a serious impact of the virus within our facility.

If there is going to be an impact on your delivery schedule, we will notify you as soon as possible, but at this time we maintain on track with all present orders.

This document will be updated weekly or as the situation changes.

Extending our wishes to you and your families to stay healthy during these difficult times.

Warm regards,

Aspen Compressor Senior Management Team
